THE STRATEGIC FRAMEWORK

The Strategic Business Plan 2008 – 2010 arises from our vision of achieving the safest community for residents and visitors to Durham Region.

New to this plan is the introduction of a Problem-Oriented Policing philosophy. This philosophy will drive the Service to address the root causes of local issues and police-related problems, in partnership with our community.

The Plan is organized into broad strategic priorities, multiple objectives, and specific strategies that guide police service delivery and support the overall transition to Problem-Oriented Policing.

Together, these objectives and strategies, once implemented, will bring the Durham Regional Police Service closer to its vision of being the safest community in which to live, work and play.
