2021 DURHAM REGIONAL POLICE **ANNUAL REPORT**

Meeting challenges with resolve and a
steadfast focus on community safety.

**GREETING FROM POLICE
SERVICES BOARD CHAIR BOBBIE
DREW AND INTERIM POLICE
CHIEF TODD ROLLAUER.**

MESSAGE FROM THE CHAIR

Welcome to the 2021 edition of the DRPS Annual Report. In many ways, 2021 was similar to 2020 in that our community continued to adapt to the pandemic and the physical, mental and social challenges arising from COVID-19. The Board is very proud of how well the DRPS has served the community during this challenging time, and especially the DRPS members who again put their own health and safety at risk for the benefit of their community.

As representatives of the public, the Board must stay connected to those whose views it represents in setting goals, priorities and policies for the DRPS. To build community trust, the Board developed an Action Plan with key priorities designed to enhance accountability, transparency, equity and inclusion practices and to improve communication. The priorities in the Action Plan were developed based on community input, and they will continue to shape the operational direction of the DRPS. The Board also listened to the members of the DRPS who commit their professional careers to community safety. Members have a unique perspective on issues that the organization addresses on a daily basis, and we are grateful for their input to strengthen the Service.

As the Region continues to grow and evolve, so too do the demands upon our policing services. From addressing the growth in mental health related to calls, to dealing with safety and wellbeing challenges in downtown Osahwa, and confronting the devastating effects of crimes such as human trafficking and fraud of the elderly, the DRPS is relied upon heavily as a pillar of community strength. We are deeply grateful for the persistent professionalism of the sworn and civilian members in the face of challenge and change. And to Chief Rollauer and the leadership cadre of the Service, who encounter difficult choices and competing demands every day in order to keep our community safe – thank you, and well done.

*Bobbie Drew
Police Services Board Chair*

**GREETING FROM POLICE
SERVICES BOARD CHAIR BOBBIE
DREW AND INTERIM POLICE
CHIEF TODD ROLLAUER.**

MESSAGE FROM THE CHIEF

I am appreciative but never surprised by the continued resolve and commitment of our Service members.

As Chair Drew mentioned, 2021 was another challenging year of navigating the mental, physical and organizational impacts of COVID-19. But despite wave after wave, our members remained focused and committed to their role and duties towards community safety.

I want to acknowledge all of our 1,200 plus members from both the sworn and civilian side that, collectively helped elevate the Service in 2021. From the continued progress in our Four Point Plan to Address Systemic Barriers to the roll-out of our three-year Body Worn Camera program and action, we are committed to progress now and in the coming years.

Despite the many challenges related to the pandemic, DRPS continued to deliver operationally. DRPS had the third highest weighted clearance rates among our GTA comparators. As well, our 911 Communications Unit continued to well exceed national standards with 93 per cent of our 911 calls answered in 8 seconds or less.

We know that Durham Region will continue to grow and that the complexity of crime will evolve, but the DRPS will also be progressive in its approach to address areas of concern and community safety.

*Todd Rollauer
Chief of Police*

POLICE SERVICES BOARD HIGHLIGHTS

The Police Services Board is the governing body of our Service

LEARN MORE

A Year of Community Engagement

In the early part of 2021, the Board conducted a poll of the community and members on policing issues in Durham Region. The purpose of the poll was to understand perceptions of the DRPS, and following the period of consultation, the Board introduced a draft Action Plan to Enhance Trust and Confidence in Policing, with four key priorities: transparency in decision-making; improving diversity, equity and inclusion practices and procedures; strengthening the response to mental health calls; and supporting the DRPS' four initiatives to address systemic barriers and the Equity and Inclusion Strategic Plan. The Board looks forward to the ongoing implementation of the Plan and to realizing lasting and meaningful change.

Late in the year, the Police Services Board, with the assistance of Environics Research, held public and stakeholder consultations on the qualities and characteristics that should be prioritized in the Board's search for a new Chief of Police. These consultations will serve as the foundation for the Board's leadership recruitment and evaluation of candidates for the Chief of Police position. The Board is grateful for the contributions of all who participated in offering their perspectives to assist the Board in making one of its most important decisions.

Farewell to Board Member Steve deBoer

The Board bid farewell to Steve deBoer in 2021, following almost three years of service. Mr. deBoer passionately advocated for effective governance practices, and exercised his voice diligently at the Board table, especially on matters that affected the membership and leadership of the DRPS. His presence will be missed.

Launch of New Board Web Site

The Board was pleased to establish its own direct communication link with the community with the launch of its new web page in 2021. Additional information is included on the site, including budget information, and the site provides easier navigation to the Board documentation and meeting information. We encourage everyone to take a tour at www.durhampoliceboard.ca

STRATEGIC PLAN REVIEW

GOAL

1

Deliver services and programs that inspire the trust of all communities

GOAL

2

Provide efficient and effective evidence-based policing services

GOAL

3

Foster a positive organizational culture

The DRPS Strategic Plan is a guiding document that outlines the priorities of the community and the Service. It sets out objectives and actionable measurement goals, as well as forming the basis for subsequent community safety plans in each of the five divisions.

With the Strategic Plan in its second year, there were a number of important achievements in 2021. But it is important to note that each of these three goals guide the delivery of Services to the people of Durham Region every day.

GOAL

1

Deliver services and programs that inspire the trust of all communities

Improve reported levels of satisfaction across the communities we serve

Identify, prioritize and strengthen partnerships to support equity-seeking groups in the community

Increase community participation in crime prevention by providing relevant and timely crime and safety information

Attract a skilled workforce that reflects the diversity of the community

Enhance police visibility to instill community confidence and reduce fear of crime

HIGHLIGHTS

Body-Worn Cameras Project

On Thursday, September 16, 2021, DRPS began a phased deployment of Body-Worn Cameras (BWCs). The rollout follows a year-long pilot project to determine the value of BWCs to the DRPS, our partners and the community regarding evidence collection, trust, transparency, accountability and service effectiveness. For more, visit www.drps.ca/BWC

Diversity Advisory Committee (DAC)

Established to deal with challenges that impact the diverse communities of Durham Region, DAC is made up of appointed citizens who sit as a consultative and advisory body to the Office of the Chief of Police. The committee met 10 times during the year and also participated in recruit interviews, and the review of policies, procedures and directives. For more on DAC, visit www.drps.ca/DAC

Enhanced Communication with the Public

In 2021, the Service revamped its approach for reaching the public with timely and relevant information. More than 2,400 public statements were issued, which was a 73% increase from 2020. This increase is partly due to an increase in social media campaigns aimed at crime prevention and public education.

GOAL

2

Provide efficient and effective evidence-based policing services

Improve road safety by focusing enforcement on the most dangerous driving behaviours

Prevent re-offending

Prevent, investigate and solve criminal activity using intelligence, partnerships and data analysis

Maintain cost-effective service through innovation and continuous improvement

HIGHLIGHTS

Durham Vision Zero

This strategic road safety action plan is a partnership between the Region of Durham and DRPS. The plan aims to create safer roads for drivers, pedestrians and cyclists. To view the plan, visit

<https://www.durham.ca/en/living-here/vision-zero.aspx>

Four-Point Plan

Introduced in 2019, the Four-Point Plan to Address Systemic Barriers was introduced by the Service. A key achievement in 2021 was the release of race-based data for use of force interactions. This aligned with the first of the four points of the plan: race-based data collection and analysis. For more on the Four-Point Plan, visit www.drps.ca/fourpoint

Crime Analysis

The Crime Analysis Unit provides ongoing, crucial analyses that contribute to building a safer community. This is done through mapping and analyzing crime, and identifying and monitoring priority crime patterns and emerging trends. In 2021, the Service increased its focus on identifying and responding to crime in hotspots, assisted with 38 major project investigations and identified 12 significant regional crime trends that were then communicated to members for follow-up.

GOAL

3

Foster a positive
organizational culture

Support the physical and mental health
and general well-being of members

Ensure a respectful, bias-free and
inclusive workplace

Identify and resolve the barriers to
effective internal communication

Improve the transparency and clarity
of member evaluation and
development processes

HIGHLIGHTS

Mental Health Investments

The Service has a number of remarkable programs to promote the mental well-being of its members.

- DRPSupport App, which provides access to resources
- Unlimited mental health benefits
- Road to Mental Readiness Training
- Mental Health Awareness Program for New Recruits
- Critical incident stress support and peer support teams

DRPS has the

3RD

highest weighted clearance rates in the GTA

(meaning we solved a lot of the most severe crimes in our region)

DRPS members laid more than

30,000

criminal code charges, which is a slight increase of 0.4% compared to 2020

Our 911 operators smashed the standards for answering calls when **they answered 93 per cent of emergency calls in 8 seconds or less**

Total tweet impressions: **25.8 million**, which is a 900% increase from 2020

Human Trafficking Unit conducted

336

human trafficking investigations.

This team identified and assisted

312 and **215**

victims

charges

More than 3,200 calls for service were generated related to **COVID compliance**. This is down from 5,400 in 2020.

There was a 20% increase in **mental-health reports** generated in 2021 over 2020.

The K-9 Unit located

50

pieces of evidence, apprehended

13

suspects and located

80

persons.

As we navigated through the first full year of the pandemic, our officers continued to see an increase in dangerous driving behaviours over pre-pandemic numbers. With less travelled roads, officers saw a 23 per cent increase in stunt driving charges to 228 (compared to 185 in 2020). The number of speeding infractions decreased by 14 per cent (7,346) over the previous year (8,415). Overall, dangerous operation violations decreased by seven per cent from 2020, but remained 43 per cent higher than 2019.

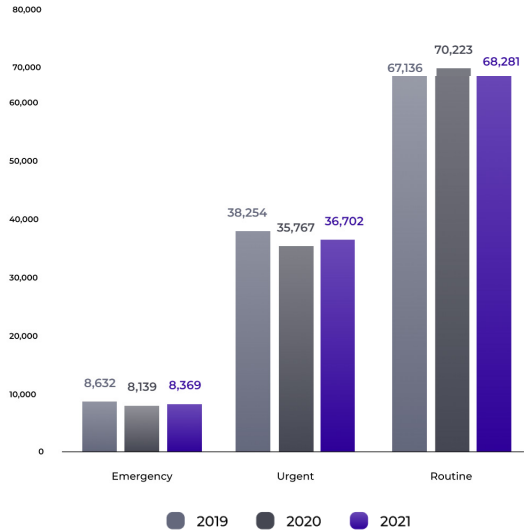

Fatal collisions on DRPS-controlled roadways increased in 2021 to 21 (compared to 20 in 2010). There was a slight increase in impaired driving charges — 745 compared to 722 in 2020. An effective R.I.D.E. campaign during the holiday season removed 65 impaired motorists from the roads.

DRPS Traffic Services continues to follow the Durham Vision Zero Strategy, a region-wide road safety strategy led by DRPS and the Regional Municipality of Durham. Part of this strategy focuses on public education – several social media awareness initiatives were executed to raise public awareness about: community safety zones, school bus safety, impaired driving, adjusting driving to weather conditions and speeding.

DRPS officers patrol the approximately 2,500 square kilometres that makes up Durham Region, backed up by a team of dedicated civilian members. As the 10th largest municipal police service in Canada, DRPS faces many challenges, but is constantly evolving in order to help prevent and solve issues in the community every day.

Regional Facts	2017	2018	2019	2020	2021

OVERSIGHT

Public Complaints

In 2021, the OIPRD received **156 public complaints** with respect to the conduct of either DRPS officers or DRPS services, or policies. This represented a **5.4 percent increase** from the 148 complaints received in 2020. However, it is important to note in 2020, we received 19 public complaints regarding the same matter.

Of the **156 public complaints involving DRPS officers**, conduct, services or policies, **81 were addressed by the OIPRD as follows**

- **75** were screened out by the OIPRD and closed based on the criteria outlined in the [Oversight Appendix](#).
- **One** was withdrawn before screening
- **Five** were assigned to third-party police services for investigations and, at the time of writing, one was resolved by Informal Resolution, three were unsubstantiated and one is still under investigation.

Special Investigations Unit

The Special Investigations Unit (SIU) is the civilian oversight agency responsible for investigating circumstances involving police that have resulted in a death, serious injury, or allegations of sexual assault of a civilian in Ontario, Canada. In 2021, the **SIU invoked their mandate 15 times in Durham, compared to 10 times in 2020**. One of those cases are pending, criminal charges were laid in one of the cases, nine were closed with no further action, and four were terminated and had no report filed with the Attorney General.

The **remaining 75 public complaints** were assigned to DRPS PSU for investigation. This is a **33.9 percent increase** from the 56 that were assigned to PSU in 2020.

60 of those public complaints have been resolved as follows:

- **Five** were resolved by way of Early Resolution,
- **19** were closed by way of Informal Resolution Agreement (after mediation with PSU investigators),
- **One** was terminated by OIPRD,
- **One** was terminated by PSU (unable to investigate),
- **11** were deemed unsubstantiated, and,
- **23** were withdrawn by the complainants (after mediation with PSU investigators).

The **remaining 15 public complaints** are still under investigation.

Street Checks

A regulation in the Police Services Act, known as the Collection of Identifying Information in Certain Circumstances — also known as street checks — defines a police interaction and regulates how identifying information may be collected. In 2021, no street checks were conducted by DRPS officers. Therefore, there were no public complaints, general information requests or personal record information requests made under the Municipal Freedom of Information and Privacy Act relating to information collected pursuant to the Regulation. There were no instances in which a police officer did not carry out their duty to inform the individual for the reasons outlined in Section 6 of the Regulation or where an individual was not given a receipt document because the individual did not indicate that they wanted it. As there were no attempted collections, there were no instances where an officer did not provide a receipt for any of the reasons prescribed in the Regulation. The restricted database was not accessed for any purpose in 2021.

Joint Force Operations

Every year, a number of DRPS investigations involve working with police services across Ontario, Canada and sometimes globally. Our members are embedded in a number of Joint Forces Operations to share information with other police services, and federal and provincial authorities. These include the Provincial Asset Forfeiture Unit; the Provincial Biker Enforcement Unit; the Provincial Weapons Enforcement Unit; the Criminal Intelligence Service of Ontario; the Provincial Anti-Terrorism Section; the Integrated National Security Enforcement Team; the Combined Forces Special Enforcement Unit and the Repeat Offender Parole Enforcement squad.

Project Kakia is an amazing example of a successful JFO partnership from 2021. This was a six-month multi-jurisdictional investigation led by the DRPS Gun and Gang Enforcement Unit in partnership with the Royal Canadian Mounted Police Transnational Serious and Organized Crime Unit. Further support and funding was provided by the Ontario Government, Criminal Intelligence Service Ontario.

Use of Force

As of Jan. 1, 2020, the Ontario government implemented a standardized system of “use of force” reporting by all police services. In 2021, 243 out of 113,352 police calls received by DRPS met the threshold for mandatory reporting. This amounts to approximately 0.2 per cent of all calls (not including traffic stops and other undispached-officer contact with the public). This reflects the professional, strategic and purposeful manner in which our officers engage the members of our community on a daily basis, as well as their commitment to making the Region of Durham a safe community in which to live, work and play. It is also a testament to our rigorous officer training to use force as a last resort.
